Erin, here's the recall info from VW. You will notice that this is very confusing -- VW bundled a whole bunch of issues into these recalls and so it's hard for anyone to pull out the NOx problem. -- j. -

Hi Byron,

We no longer post recall information on our websites. I have attached the two recall reports VW submitted. #009 is for the Gen 2 and I believe 0012 covers the gen 1 off cycle issue but it is difficult to determine from their description.

There have been 3 quarters of reporting completed as of Aug 19 for the Gen 2 recall (009) which has captured 68927 vehicles out of 91539 or 75%

There has been 1 quarter of reporting completed as of Aug 19 for the gen 1 recall (0012) which has captured 127242 vehicles out of 299759 or 43 %.
